Policy 7230

Facilities Construction

Occupancy and Orientation

Staff orientation to a new or remodeled school building will begin with the participation of staff members in and research for the planning of the building. When educational specifications for a new or remodeled building include program changes, arrangements shall be made for appropriate training of staff members so they will be adequately prepared for implementing the desired changes. Before the new structure is occupied, staff will be provided with a building tour and other appropriate introduction to the new site in order to facilitate appropriate utilization of the new facility.
